WORKSHOP ONE

Legacy Opening Assessment

Getting to know you

Before we begin, a set of questions about where you are now. There are no right answers, and the ones you find hardest are usually the ones worth sitting with.

1. What would you want said about your work in ten years?

2. Which part of the last year are you proudest of, and why that one?

3. Where do you notice yourself avoiding a decision?

4. Who benefits most when you are at your best?

5. What would you stop doing tomorrow if nobody would mind?

6. What does a good week actually look like, hour by hour?
